**Volume 44, Number 36**

**Weekly Summary for October 11 – 17**

**Issued October 18, 2021**

Rainfall totals in Oklahoma averaged 1.59 inches, with the East Central district recording the highest total at 3.17 inches. According to the October 12<sup>th</sup> US Drought Monitor Report, drought conditions were rated 96 percent abnormally dry to exceptional drought, up 3 points from the previous week. Additionally, 62 percent of the state was in the moderate drought to exceptional drought category, down 7 points from the previous week. Statewide, temperatures averaged in the low 60's. Topsoil and Subsoil moisture conditions were rated mostly adequate to short. There were 4.8 days suitable for fieldwork.

**Small Grains:** Winter wheat planted reached 57 percent, down 16 points from the previous year and down 15 points from normal. Winter wheat emerged reached 37 percent, down 9 points from the previous year and down 14 points from normal. Canola planted reached 22 percent, down 4 points from the previous year and down 32 points from normal. Rye planted reached 11 percent, down 33 points from the previous year and down 51 points from normal. Oats planted reached 10 percent, down 19 points from the previous year and down 17 points from normal.

**Row Crops:** Corn harvested reached 69 percent, down 2 points from the previous year but unchanged from normal. Sorghum mature reached 92 percent, up 6 points from both the previous year and normal. Sorghum harvested reached 48 percent, up 2 points from the previous year and up 1 point from normal. Soybeans dropping leaves reached 71 percent, up 3 points from both the previous year and normal. Soybeans harvested reached 23 percent, down 4 points from the previous year but unchanged from normal. Peanuts mature reached 70 percent, up 2 points from the previous year but down 3 points from normal. Peanuts harvested reached 18 percent, down 12 points from the previous year and down 11 points from normal. Cotton bolls opening reached 90 percent, unchanged from the previous year but up 1 point from normal. Cotton harvested reached 14 percent, down 1 point from the previous year and down 2 points from normal.

**Hay:** The fourth cutting of alfalfa hay reached 95 percent. The fifth cutting of alfalfa hay reached 30 percent, unchanged from the previous year but up 12 points from normal. The third cutting of other hay reached 60 percent, up 10 points from the previous year and up 6 points from normal. The fourth cutting of other hay reached 7 percent.

**Pasture and Livestock:** Pasture and range condition was rated at 74 percent fair to good. Livestock condition was rated at 88 percent good to fair.
